1. Claims 1 and 6-43 remain for examination.
2. Applicant is requested to label various elements in the figures.
3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1 and 6-43 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
  - (a) Claim 1, line 8, "the instruction set" lacks antecedent basis.
  - (b) Claim 1, lines 20 and 22, it is not clear which executable code is referred to by "the executable code". Perhaps the use of "first executable code" and "second executable code" through out the claim could lead to easier reading and clarification.
  - (c) Claim 1, line 22, it is not clear whether the equivalent translated function is in the first executable code (new code for the coprocessor).
  - (d) Claim 1, there is also confusion about the executable code in the steps (b) and (c).
5. Applicant's arguments with respect to claims 1 and 6-43 have been considered but are moot in view of the new ground(s) of rejection.
6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kenneth S KIM whose telephone number is (571) 272-3627. The examiner can normally be reached on M-F (8:30-17:00).
